### **FROM CHAIRMAN'S DESK**

**Hon. Shri. Bhausaheb A. Rupnar**  
**Chairman**

I would like to congratulate and welcome our college's budding pharmacists to the world of a rewarding career. I'm delighted to know that FES, Fabtech College of Pharmacy in Sangola, is releasing its Bimonthly Seventeenth Fabtech Pharma Newsletter. Undoubtedly, the college newsletter will contribute in the promotion of the college's multiple activities. It acts as a showcase for the faculty's achievements and successes in the classroom. This strengthens the documentation culture at the institute. It also facilitates the development of teamwork, which is essential in today's competitive global environment. I hope that this tradition of sending out newsletters continues indefinitely. We educate in a unique and creative way, and our students learn in a unique and creative way. Today's pupils have a strong knowledge base and adaptability. I am confident that this will keep the pupils updated about the advancements and challenges they will encounter in the near future. This has been a watershed moment for our programme, and we are grateful for your continued support and efforts on behalf of our students. I wish all the best to the incoming Fabtech College of Pharmacy, Sangola. Pharmacists who are ready to make their mark in the pharmacy profession.

**FROM MANAGING DIRECTOR'S DESK**

**Hon. Dr. Ameet B. Rupnar**  
Managing Director

I'd like to express my gratitude to Fabtech College of Pharmacy for producing this Seventeenth Fabtech Pharma newsletter. Beyond academics, it has made a name for itself among Pharmacy Colleges in the community by hosting, participating in, and organising seminars, workshops, placement exercises, health awareness campaigns, and blood donation camps, among other things. The efforts of good administration, dedicated teaching faculty, quality students, and a broad foundation of sophisticated instruments, an enlarged library, and an educationally supportive environment are undoubtedly responsible for this accomplishment. It serves as a showcase for the faculty's accomplishments and accomplishments in the classroom. This improves the institute's documentation culture. I warmly welcome you to explore this Fabtech Pharma Newsletter and make a visit to our college campus to get a feel of our vibrant academic atmosphere.

**FROM CAMPUS DIRECTOR'S DESK**

**Hon. Dr. Sanjay N. Adate**  
Campus Director

I'd like to congratulate Fabtech College of Pharmacy, Sangola on this Seventeenth Bimonthly Fabtech Pharma Newsletter work, theory, practical, seminar presentations, and research projects are all part of the Pharmacy curriculum. Aside from academics, students are also involved in cultural and sporting activities, as well as different competitions and social activities. I am delighted to present the Fourteenth Bimonthly Fabtech Pharma Newsletter, and best wishes for the newsletter's continued success.

**FROM PRINCIPAL'S DESK**

**Prof. Dr. S.K. Bais**  
Principal

The News Letter is a source of great pride and satisfaction for FES, Fabtech College of Pharmacy, Sangola. The College has made significant success in all academic and non-academic areas, as well as capacity building for staff and students. I am confident that this edition of Fabtech Pharma Newsletter will send a positive message to staff, students, and others interested in technical education and technology-based activities. A News Letter is similar to a mirror in that it displays a clear picture of all of a college's activities and helps students and teaching faculty strengthen their writing skills. I appreciate the Editorial Board of this News Letter for their hard work and efforts in completing the work in record time. Also, please accept my deepest congratulations to the staff and students for their successful efforts with Best Wishes.

**EDITORIAL TEAM**

**Principal  
Editor in Chief**

**Prof. A.V. Pore  
Associate Professor  
Newsletter Editor**

**Prof. A.B. Zade  
HOD, Diploma  
Member**

**Dr. S. M. Kazi

**Dr. S.B. Nagansurkar  
Associate Professor  
Member**

**FROM EDITORS DESK**

The editorial team has the honour of releasing the Seventeenth FES Fabtech College of Pharmacy, Sangola. Fabtech Pharma Newsletter. A newsletter, as we all know, reflects a college's vision and objectives. It also highlights upcoming events, activities, and academic progress. We express our heartfelt gratitude to our management and principal for their great support, as well as their permission to publish the newsletter. Many more people, including students, are encouraged to use this newsletter as a platform to exhibit their ideas.

# LEADING ARTICLE

## Pneumonia

### Introduction

Pneumonia is inflammation and fluid in your lungs caused by a bacterial, viral or fungal infection. It makes it difficult to breathe and can cause a fever and cough with yellow, green or bloody mucus. The flu, COVID-19 and pneumococcal disease are common causes of pneumonia. Treatment depends on the cause and severity of pneumonia.

### Overview

Pneumonia causes your lung tissue to swell. It can cause fluid or pus in your lungs.

### What is pneumonia?

Pneumonia is an infection in your lungs caused by bacteria, viruses or fungi. Pneumonia causes your lung tissue to swell (inflammation) and can cause fluid or pus in your lungs. Bacterial pneumonia is usually more severe than viral pneumonia, which often resolves on its own.

Pneumonia can affect one or both lungs. Pneumonia in both of your lungs is called bilateral or double pneumonia.

### What's the difference between viral and bacterial pneumonia?

While all pneumonia is inflammation caused by an infection in your lungs, you may have different symptoms depending on whether the root cause is a virus, bacteria or fungi.

Bacterial pneumonia tends to be more common and more

severe than viral pneumonia. It's more likely to require a hospital stay. Providers treat bacterial pneumonia with antibiotics. Viral pneumonia causes flu-like symptoms and is more likely to resolve on its own. You usually don't need specific treatment for viral pneumonia.

### What are the types of pneumonia?

We categorize pneumonia by which pathogen (virus, bacteria or fungi) caused it and how you got it — community-acquired, hospital-acquired or ventilator-associated pneumonia.

### Community-acquired pneumonia (CAP)

When you get pneumonia outside of a healthcare facility, it's called community-acquired pneumonia. Causes include:

#### Bacteria

Infection with *Streptococcus pneumoniae* bacteria, also called pneumococcal disease, is the most common cause of CAP. Pneumococcal disease can also cause ear infections, sinus infections and meningitis. *Mycoplasma pneumoniae* bacteria causes atypical pneumonia, which usually has milder symptoms. Other bacteria that cause CAP include *Haemophilus influenza*, *Chlamydia pneumoniae* and *Legionella* (Legionnaires' disease).

#### Viruses

Viruses that cause the common cold, the flu (influenza), COVID-19 and respiratory syncytial virus (RSV) can sometimes lead to pneumonia.

**Fungi (molds)**

Fungi, like *Cryptococcus*, *Pneumocystis jirovecii* and *Coccidioides*, are uncommon causes of pneumonia. People with compromised immune systems are most at risk of getting pneumonia from a fungus.

**Protozoa**

Rarely, protozoa like *Toxoplasma* cause pneumonia.

**Hospital-acquired pneumonia (HAP)**

You can get hospital-acquired pneumonia (HAP) while in a hospital or healthcare facility for another illness or procedure. HAP is usually more serious than community-acquired pneumonia because it's often caused by antibiotic-resistant bacteria, like methicillin-resistant *Staphylococcus aureus* (MRSA). This means HAP can make you sicker and be harder to treat.

**Healthcare-associated pneumonia (HCAP)**

You can get HCAP while in a long-term care facility (such as a nursing home) or outpatient, extended-stay clinics. Like hospital-acquired pneumonia, it's usually caused by antibiotic-resistant bacteria.

**Ventilator-associated pneumonia (VAP)**

If you need to be on a respirator or breathing machine to help you breathe in the hospital (usually in the ICU), you're at risk for ventilator-associated pneumonia (VAP). The same types of bacteria as community-acquired pneumonia, as well as the drug-resistant kinds that cause hospital-acquired pneumonia, cause VAP.

**Aspiration pneumonia**

Aspiration is when solid food, liquids, spit or vomit go down your trachea (windpipe) and into your lungs. If you can't cough these up, your lungs can get infected.

**Who gets pneumonia?**

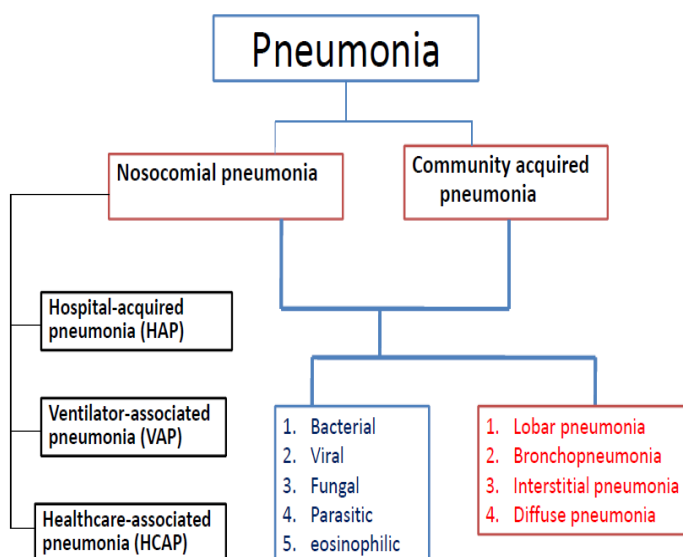

Pneumonia can happen at any age. However, it is more common in elderly people and young children. Some people are at higher risk of pneumonia because they have preexisting lung diseases, poor nutrition, difficulty swallowing, other chronic health problems or problems with their immune system. People who smoke and people who are around tobacco smoke are at higher risk of developing pneumonia. People who have not had the yearly influenza vaccine or who have not been immunized for *Streptococcus pneumoniae* bacteria (Prevnar 13® and/or Pneumovax 23® pneumococcal vaccines) are also at higher risk for lung infections.

**What are the signs and symptoms of pneumonia?**

Symptoms of pneumonia depend on the cause. Symptoms can range from mild to severe. Babies, young children and older adults may have different symptoms.

**Symptoms of bacterial pneumonia**

Symptoms of bacterial pneumonia can develop gradually or suddenly. Symptoms include:

High fever (up to 105 F or 40.55 C).

Cough with yellow, green or bloody mucus.

Tiredness (fatigue).

Rapid breathing.

Shortness of breath.

Rapid heart rate.

Sweating or chills.

Chest pain and/or abdominal pain, especially with coughing or deep breathing.

Loss of appetite.

Bluish skin, lips or nails (cyanosis).

Confusion or altered mental state.

### Symptoms of viral pneumonia

Symptoms of viral pneumonia usually develop over several days. You might have symptoms similar to bacterial pneumonia or you might additionally have:

Dry cough.

Headache.

Muscle pain.

Extreme tiredness or weakness.

### Symptoms of pneumonia in young children

Babies and newborns may not show any symptoms of pneumonia or their symptoms may be different from adults, including:

Fever, chills, general discomfort, sweating/flushed skin.

Cough.

Difficulty breathing or rapid breathing (tachypnea).

Loss of appetite.

Vomiting.

Lack of energy.

Restlessness or fussiness.

Signs you can look for in babies and young children include:

Grunting sound with breathing or noisy breathing.

A decreased amount of pee or diapers that are less wet.

Pale skin.

Limpness.

Crying more than usual.

Difficulty feeding.

## Symptoms of Pneumonia

**High fever.**

**Cough, sometimes with yellow, green or bloody mucus.**

**Tiredness (fatigue).**

**Rapid breathing or heart rate.**

**Shortness of breath.**

**Sweating or chills.**

**Chest or abdominal pain.**

**Loss of appetite.**

**Bluish skin, lips or nails.**

**Confusion or altered mental state.**

**Symptoms of pneumonia in adults over 65**

Adults over 65 or those with weakened immune systems may have mild or less noticeable symptoms of pneumonia (like cough and shortness of breath). Symptoms of ongoing health conditions may worsen.

Older adults may experience:

A sudden change in mental state.

Low appetite.

Fatigue.

**What causes pneumonia?**

Pneumonia can develop when your immune system attacks an infection in the small sacs of your lung (alveoli). This causes your lungs to swell and leak fluids.

Many bacteria, viruses and fungi can cause the infections that lead to pneumonia. Bacteria are the most common cause in adults and viruses are the most common cause in school-aged children. Common illnesses that can lead to pneumonia include:

Common cold (rhinovirus).

COVID-19 (SARS-COV-2).

The flu (influenza virus).

Human metapneumovirus (HMPV).

Human parainfluenza virus (HPIV).

Legionnaires' disease.

Mycoplasma pneumonia bacteria.

Pneumococcal disease.

Pneumocystis pneumonia.

Respiratory syncytial virus (RSV).

**Complications**

Even with treatment, some people with pneumonia, especially those in high-risk groups, may experience complications, including:

**Bacteria in the bloodstream (bacteremia)**

Bacteria that enter the bloodstream from your lungs can spread the infection to other organs, potentially causing organ failure.

**Difficulty breathing**

If your pneumonia is severe or you have chronic underlying lung diseases, you may have trouble breathing in enough oxygen. You may need to be hospitalized and use a breathing machine (ventilator) while your lung heals.

**Fluid accumulation around the lungs (pleural effusion)**

Pneumonia may cause fluid to build up in the thin space between layers of tissue that line the lungs and chest cavity (pleura). If the fluid becomes infected, you may need to have it drained through a chest tube or removed with surgery.

**Lung abscess**

An abscess occurs if pus forms in a cavity in the lung. An abscess is usually treated with antibiotics. Sometimes, surgery or drainage with a long needle or tube placed into the abscess is needed to remove the pus.

**How is pneumonia diagnosed?**

Your healthcare provider will consider your symptoms and do a physical exam. There can be reduced or abnormal sounds heard in the lung with pneumonia. Blood tests may be done to look at your white blood count and other tests that may be abnormal due to infection. Often a chest x-ray is done that can show the area or areas of pneumonia. Sometimes a more detailed computerized x-ray called a CT (often called "cat") scan is done. Cultures and tests may be done of sputum (also called phlegm or mucus) from the lungs that

is coughed out to see if a bacteria or virus can be found. People who are sick enough to be in the hospital are more often tested for the most likely viruses and bacteria. If a person is not getting better, has severe infection, or is at high risk of an unusual infection, a sample of mucus may be taken from the lung through the airways using a procedure called flexible bronchoscopy.

Sometimes it can be hard to know what type of infection (for example what bacteria) is causing the pneumonia. This can be because the tests are not perfect, and/or you may have received some treatment before the tests were done. However, your healthcare provider will help you decide on a plan of treatment based on what is the most likely cause based from the information he or she has about you, what types of infection are being seen in your community, and what types of infection you might be at more risk for if you have a pre-existing health problem.

### **Prevention**

To help prevent pneumonia

#### **Get vaccinated**

Vaccines are available to prevent some types of pneumonia and the flu. Talk with your doctor about getting these shots. The vaccination guidelines have changed over time so make sure to review your vaccination status with your doctor even if you recall previously receiving a pneumonia vaccine.

#### **Make sure children get vaccinated**

Doctors recommend a different pneumonia vaccine for children younger than age 2 and for children ages 2 to 5 years who are at particular risk of pneumococcal disease. Children who attend a group child care centre should also get the vaccine. Doctors also recommend flu shots for children older than 6 months.

#### **Practice good hygiene**

To protect yourself against respiratory infections that sometimes lead to pneumonia, wash your hands regularly or use an alcohol-based hand sanitizer.

#### **Don't smoke**

Smoking damages your lungs' natural defences against respiratory infections.

#### **Keep your immune system strong**

Get enough sleep, exercise regularly and eat a healthy diet.

#### **How serious is pneumonia?**

If you've been diagnosed with pneumonia, you should take it seriously and take care of yourself. Most people with pneumonia recover with antibiotics and rest. However, about 1 in 5 adults with pneumonia need to be in the hospital, and people with severe infection may require intensive care unit (ICU) and life support measures. Severe pneumonia can lead to death, especially for the elderly, young children, or people

## **Laboratory Tests:**

### **Routine blood investigations**

CBC with differential  
BUN/Cr, electrolytes  
Glucose, liver enzymes  
Blood culture

### **Imaging studies**

X-Ray chest P/A & lateral view  
Compute tomography

### **Microbiological tests**

Sputum Gram stain  
Sputum for culture  
Sputum for Ziehl Neelsen stain  
Sputum cytology

### **Serological test**

Pneumococcal antigen test  
Legionella antigen

Pulse oximetry  
Arterial oxygen saturation

with other medical problems. The overall death rate for pneumonia in hospitals in the United States is less than 5%. In other parts of the world, rates of pneumonia and deaths are much higher. Pneumonia is often a short-term illness but sometimes it can last longer, or get worse before it gets better. Most of the time, however, people experience a full recovery. Usually, no permanent scarring or damage to the lungs results if you do not have another lung or immune problem. However, there is always some risk of lung damage from a serious infection. Your healthcare provider can talk with you about what to expect for recovery and whether you will need any follow-up x-rays or lung function tests.

### **What can I do to avoid getting a pneumonia?**

Stop smoking and vaping. Avoid being around tobacco smoke.

Get yearly influenza virus vaccine and updated *Streptococcus pneumoniae* (pneumococcal) vaccine.

Basic protections including wearing masks, physical distancing and avoiding large crowds can reduce your risk and others from COVID-19 and other respiratory viruses.

Wash hands at all times especially when meeting someone with a cold or lung infection.

Lead a healthy lifestyle with good diet and exercise.

## ACADEMIC ACTIVITIES

### Overall syllabus completion and attendance of B. Pharm-II year, Sem-III Students

The Overall 100% Syllabus of Theory and Practical subjects like Pharmaceutical Organic Chemistry-II, Physical Pharmaceutics-I, Pharmaceutical Microbiology, Pharmaceutical Engineering of B. Pharm-II, Sem-III, was completed by the faculty members with 85% attendance of students for the Theory classes and Practical.

### Conducted End Semester Theory and Practical Examination of B. Pharm -II Year, Sem-III

As per Time-Table given by Dr. Babasaheb Ambedkar Technological University, Lonere. The Fabtech College of Pharmacy, Sangola was conducted the End Semester Theory and Practical examination from 25/11/2024 to 04/01/2025.

### Overall syllabus completion and attendance of B. Pharm-III year, Sem-V Students

The Overall 100% Syllabus of Theory and Practical subjects like Medicinal Chemistry -II, Industrial Pharmacy-I, Pharmacology-II, Pharmacognosy and Phytochemistry-II, Pharmaceutical Jurisprudence of B. Pharm-III, Sem-V, was completed by the faculty members with 80% attendance of students for the Theory classes and Practical.

### Conducted End Semester Theory and Practical Examination of B. Pharm - III Year, Sem-V

As per Time-Table given by Dr. Babasaheb Ambedkar Technological University, Lonere. The Fabtech College of Pharmacy, Sangola was conducted the End Semester Theory

and Practical examination from 25/11/2024 to 04/01/2025.

### Overall syllabus completion and attendance of B. Pharm-IV year, Sem-VII Students

The Overall 100% Syllabus of Theory subjects like Instrumental Methods of Analysis, Industrial Pharmacy-II, Pharmacy Practice, Novel Drug Delivery System of B. Pharm-IV, Sem-VII, was completed by the faculty members with 80% attendance of students for the Theory classes.

### Conducted End Semester Theory and Practical Examination of B. Pharm - IV Year, Sem-VII

As per Time-Table given by Dr. Babasaheb Ambedkar Technological University, Lonere. The Fabtech College of Pharmacy, Sangola was conducted the First sessional Theory and Practical examination from 25/11/2024 to 04/01/2025.

### Academic Calendar 2024-25 for 1<sup>st</sup> year newly admitted Pharmacy students (Revised)

1. Academic Schedule for Newly Admitted 1 <sup>st</sup> Year students		
S.N.	Activities	Pharmacy 1 <sup>st</sup> Year
1	Academic Term	09 December, 2024 – 30 April, 2025
2	First Class Test	14- 18 January, 2025
3	Second Class Test	04 – 08 March, 2025
4	Third Class Test	21 – 25 April, 2025

2. Enrollment Schedule for Newly admitted 1 <sup>st</sup> Year students		
S.N.	Activities	Enrollment Schedule
1	Institute Confirmation	02 – 06 January, 2025
2	RBTE Confirmation	07 – 09 January, 2025

3. Summer 2025 Examination Form Fill & Confirmation Schedule				
S.N.	Activities	Filling Examination forms (Normal Fees)	Filling Examination forms (With Exam form fees + Late fees of Rs. 200/-)	Filling Examination forms (With Exam form fees + Penalty Rs. 1500/-)
1	Candidate fill	18 February – 02 March, 2025	04 – 06 March, 2025	08 – 09 March, 2025
2	Institute fill & Confirmation	18 February – 03 March, 2025	04 – 07 March, 2025	08 – 10 March, 2025
3	RBTE confirmation	11 – 13 March, 2025		

Last date for RBTE confirmation of filled exam form is 13<sup>th</sup> March, 2025 upto 5:00 PM

Page 1 of 2

4. Summer 2025 Examination Schedule		
S.N.	Activities	Examination Schedule
1	Practical Exam	02 – 07 May, 2025
2	Theory Exam	10 May, 2025 onwards

Note:

- Institutes have to take measures to conduct additional instructional hours & days for completion of academic activities in time.
- All type of fees & penalties shall be necessarily deposited to regional office of the Board as per the schedule declared by respective RBTE or MSBTE.
- All Practical & term work shall be completed with continuous assessment as per curriculum till the end of term.
- In unavoidable circumstances, the necessary amendment in the schedule of any activity will be notified through separate circular on MSBTE web portal.
- The enrollment of the candidate shall remain provisional till the approval of merit list of admitted students from Regional Joint Director of Technical Education.
- The given schedule is strictly for newly admitted 1<sup>st</sup> year Pharmacy students and there is no change in schedule for second year Pharmacy students

### बीएससीईआर चा गरीब व हुषार मुलांना मदतीचा स्तुत्य उपक्रम

सांगोला (प्रतिनिधी):- पुणे येथील बी एस कौन्सिल ऑफ एज्युकेशन रिसर्च या संस्थेतर्फे फार्मसी क्षेत्रातील (महाविद्यालयांतील) अत्यंत हुषार व गरीब विद्यार्थ्यांना स्कॉलरशिप दिली जाते. विद्यार्थ्यांना करिअर विषयी मोफत मार्गदर्शन केले जाते.

मेंटोरशिप उपक्रमांतर्गत फार्मा कंपनी मधील तज्ञ व्यक्ती विद्यार्थ्यांना मार्गदर्शन करतात. जानेवारी ते मार्च २०२४ या कालावधीत पुणे, अहमदनगर, सोलापूर व कोल्हापूर जिल्ह्यातील फार्मसी कॉलेजच्या ९ विद्यार्थ्यांना अशा प्रकारची मदत केली आहे.

सांगोला येथील फॅबटेक कॉलेज ऑफ फार्मसी मधील विद्यार्थ्यांनी कु शुभांगी गंगथडे हिला या कौन्सिलतर्फे आर्थिक मदत (स्कॉलरशिप) मिळाली आहे. या महाविद्यालयाचे प्राचार्य डॉ संजय बैस यांनी या कामी मोलाचे सहकार्य व मार्गदर्शन केले अशी

माहिती समन्वयक समृद्धी पाचे यांनी दिली. बीएस कौन्सिल ऑफ एज्युकेशन अँड रिसर्चचे संचालक, मार्गदर्शक व एमआयटी वर्ल्ड पीस युनिव्हर्सिटी पुणे मधील सल्लागार डॉ कुचेकर यांनी प्राचार्य, प्राध्यापक व सदर विद्यार्थ्यांचे अभिनंदन केले.

फॅबटेक एज्युकेशन सोसायटीचे चेअरमन श्री. भाऊसाहेब रुपनर, व्यवस्थापकीय संचालक डॉ. अमित रुपनर, कार्यकारी संचालक श्री. दिनेश रुपनर, परिसर संचालक डॉ. संजय अदाटे व फार्मसीचे प्राचार्य डॉ. संजय बैस यांनी सदर विद्यार्थ्यांचे अभिनंदन केले.

### फॅबटेक फार्मसी कॉलेज आणि भरारी डिजिटल सोल्युशन्स मध्ये सामंजस्य करार

सांगोला (प्रतिनिधी):- फॅबटेक टेक्निकल कॅम्पस मधील कॉलेज ऑफ फार्मसी व भरारी डिजिटल सोल्युशन्स यांच्यात सामंजस्य करार करण्यात आला असल्याची माहिती संस्थेचे कॅम्पस डायरेक्टर डॉ. संजय अदाटे यांनी दिली.

या कराराच्या माध्यमातून विद्यार्थ्यांना चर्चासत्र कार्यशाळा, मूल्यवर्धित अभ्यासक्रम, इंडस्ट्रियल ट्रेनिंग, प्लेसमेंट सर्व्हिस तसेच

विद्यार्थ्यांसाठी करिअर मार्गदर्शन, स्किल डेव्हलपमेंट, पर्सनॅलिटी डेव्हलपमेंट, क्लिनिकल ट्रायल्स इंटरशिप, क्लिनिकल डेटा मॅनेजमेंट ट्रेनिंग व जॉब, रिसर्च पेपर व रिपोर्ट रायटिंग, मेडिकल कोडिंग, मेडिकल रायटिंग, इत्यादी प्रकारचे मार्गदर्शन विद्यार्थ्यांना मिळण्यास मदत होणार आहे. अशाप्रकारचा सामंजस्य करार केल्यामुळे विद्यार्थ्यांना भविष्यात खूप मोठा फायदा होणार असल्याचे

फार्मसीचे प्राचार्य डॉ. संजय बैस यांनी सांगितले.

हा करार संस्थेचे चेअरमन श्री. भाऊसाहेब रुपनर, मॅनेजिंग डायरेक्टर डॉ. अमित रुपनर, कार्यकारी संचालक श्री. दिनेश रुपनर, संस्थेचे कॅम्पस डायरेक्टर डॉ. संजय अदाटे यांच्या मार्गदर्शनाखाली भरारी डिजिटल सोल्युशन्सचे ब्रिजेश तळवडकर (मानव संसाधन अधिकारी), दिव्या घडीगांवकर (प्रोजेक्ट मॅनेजर), बजरंग महाडिक (टेक्निकल प्रमुख), प्रीती पाटील (मानव संसाधन सहयोगी) फार्मसीचे प्राचार्य डॉ. संजय बैस यांच्या उपस्थितीत करण्यात आला.

हा सामंजस्य करार पार पाडण्यासाठी ट्रेनिंग आणि प्लेसमेंट विभाग प्रमुख श्री. चेतन पतंगे, सदस्य श्री. श्रीनिवास माने, सदस्य वैष्णवी कदम, शिक्षक व शिक्षकेतर कर्मचारी, विद्यार्थी प्रतिनिधी व अंतिम वर्षातील १२० विद्यार्थ्यांना आपला सहभाग नोंदविला.

### फॅबटेक टेक्निकल कॅम्पस मध्ये पं. नेहरू यांची जयंती उत्साहात साजरी

सांगोला (प्रतिनिधी):- भारताचे पहिले पंतप्रधान पंडित जवाहरलाल नेहरू यांची जयंती फॅबटेक टेक्निकल कॅम्पस मध्ये उत्साहात साजरी करण्यात आली. या वेळी अभियांत्रिकी महाविद्यालयाचे प्राचार्य डॉ.

रवींद्र शेंडगे यांच्या हस्ते पंडित जवाहरलाल नेहरू पुष्पहार अर्पण करून नेहरूंच्या विचारांचे महत्व सांगत उपस्थितांना प्रेरित केले. तसेच डिप्लोमा अभियांत्रिकीचे प्राचार्य प्रा. तानाजी बुरुंगले यांनी नेहरूजींना आदरांजली अर्पण करून नेहरूजींचे विचार व त्यांच्या जीवनकार्यावर प्रकाश टाकला.

# स्व. बिरासाहेब रूपनर यांच्या जयंतीनिमित्त १२५ दात्यानी केले रक्तदान

सांगोला(प्रतिनिधी):-सांगोला तालुक्यातील औद्योगिक व शैक्षणिक क्रांतीचे जनक तसेच फॅबटेक उद्योग समूहाचे संस्थापक स्व.बिरासाहेब रूपनर यांचा २९ डिसेंबर हा जन्मदिन. या दिनाचे औचित्य साधून फॅबटेक टेक्निकल कॅम्पस मध्ये राष्ट्रीय सेवा योजनेच्या माध्यमातून भव्य रक्तदान शिबिराचे आयोजन करण्यात आले.

शिबिराचे उद्घाटन संस्थेचे चेअरमन

श्री.भाऊसाहेब रूपनर यांच्या हस्ते करण्यात आले. विद्यार्थी, प्राध्यापक व कर्मचारी असे सर्व मिळून एकूण १२५ दात्यानी रक्तदान करून मानवतेच्या कार्यात हातभार लावला. रक्त हे कृत्रीम पद्धतीने तयार करता येत नाही. हल्लीच्या धकाधकीच्या जीवनात रक्ताची नितांत गरज आहे.त्यामुळे अशा शिबिराच्या माध्यमातून रक्त संकलन करण्याचे सामाजिक कार्य हीच स्व. बिरासाहेब यांना खरी

आदरांजली असल्याचे मत संस्थेचे चेअरमन श्री.भाऊसाहेब रूपनर यांनी व्यक्त केले.

फार्मसीचे प्राचार्य डॉ.संजय बैस यांनी रक्तदानाचे महत्त्व पटवून दिले. यावेळी पहिल्या पाच रक्तदात्यांचा मान्यवरांच्या हस्ते सत्कार करण्यात आला. या शिबिरासाठी सांगोला येथील रेवनील रक्तपेढीचे संचालक सोमेश यावलकर व त्यांच्या सहकन्यांनी रक्त संकलन करून रक्तदात्यांना प्रमाणपत्र प्रदान केले. यावेळी मॅनेजमेंट प्रतिनिधी सौ.प्राजक्ता रूपनर, कॅम्पस डायरेक्टर डॉ.संजय अदाटे, फॅबटेक अभियांत्रिकी महाविद्यालयच्या प्रभारी प्राचार्या डॉ.व्ही.एस.क्षीरसागर तसेच शिक्षक व शिक्षकेतर कर्मचारी उपस्थित होते. कार्यक्रमाचे आयोजन राष्ट्रीय सेवा योजनेचे कार्यक्रम अधिकारी प्रा.राहुल पाटोळे, समन्वयक प्रा.सौ.चैत्राली धुमाळ,तांत्रिक सहाय्यक श्री.प्रशांत गोडसे, श्री.अझर तांबोळी व इतर सहकन्यांनी केले. कार्यक्रमाचे सूत्रसंचालन श्री.अमोल पोरे यांनी केले.

## फॅबटेक टेक्निकल कॅम्पस मध्ये स्व.बिरासाहेब रूपनर यांची जयंती साजरी

सांगोला: सांगोला तालुक्यातील औद्योगिक व शैक्षणिक क्रांतीचे जनक स्व.बिरासाहेब रूपनर यांची जयंती फॅबटेक टेक्निकल कॅम्पस मध्ये साजरी करण्यात आली.

प्रतिमा पूजन करून स्व. बिरा साहेबांना अभिवादन करण्यात आले. संस्थेचे चेअरमन श्री. भाऊसाहेब रूपनर व कॅम्पस डायरेक्टर डॉ.संजय अदाटे यांनी बिरा साहेबांच्या आठवणींना उजाळा देताना फॅब्रिकेशन इंडस्ट्री, टेक्स्टाईल, शुगर यांच्या माध्यमातून रोजगार

निर्मिती करणे आणि फॅबटेक एज्युकेशन सोसायटी च्या माध्यमातून ग्रामिण भागातील विद्यार्थ्यांना तंत्रशिक्षणाची सोय करणे हे बिरासाहेबांचे स्वप्न होते असे सांगितले. प्रा.शितल बिडवे,व प्रा.विद्या नरुटे यांनी काव्य सुमनातून स्व.बिरासाहेबांना आदरांजली वाहिली . त्याबरोबर प्रा.डॉ.वागीश माथाडा , प्रा.उज्वला भगत यांनी हि आपले मनोगत व्यक्त केले. सूत्रसंचालन व आभार प्रदर्शन फॅबटेक फार्मसी चे प्रा.अमोल पोरे यांनी केले.
