### FROM CHAIRMAN DESK

I am very happy to know that Fabtech College of Pharmacy going to publish it's Eighth Newsletter "Fabtech Pharma Newsletter" which reflects bimonthly updates of the academic, co-curricular activities and extracurricular activities of the staff and students of the college. We at FCP conceptualize to train and bring out the best in the prospective pharmacist, keeping in view the focus and the direction as demanded by the trends in the pharmaceutical care sector by providing efficient infrastructure, laboratories, digital library for students and staff professionally skill full. We have also intervened in doing bit towards the society and have engaged in various health campaigns for the community through the enrolment of staff and students. With this aims at preparing the students as Pharmacists and making them aware of their rights and duties stipulated on moral issues based on pharmacy ethics and values. I wish you all the best for your efforts.

**Hon. Shri. Bhausaheb A. Rupnar**  
**Chairman**

### FROM PRINCIPAL DESK

It is my privilege to publish the eighth copy of Fabtech Pharma Newsletter 2023. The last two months has been phenomenal in all the respects as well could add so many activities for the students and staff which were successfully completed and has brought the name to the department. This copy will give the information related to academic, co-curricular activities carried out in last two months. Under the visionary and strategic guidance of our management we march in achieving a sustainable success. Our students, faculty and staff come together as a true community of scholars to advance knowledge overcome challenges to pursue their fulfilments. We believe that 'Education' is a wholesome, holistic exercise and as such we strive to give a whole new meaning to word.

## BIMONTHLY COLLEGE NEWSLETTER

### *An Overview on Pharmacovigilance*

#### *Introduction:*

PV was officially introduced in December 1961 with the publication of a letter in The Lancet by Dr. William McBride, the Australian obstetrician who first suspected a causal link between serious fatal deformities (phocomelia), thalidomide used during pregnancy: Thalidomide was used as an anti-emetic and sedative agent in pregnant women. In 1968, the WHO promoted the 'Programme for International Drug Monitoring' a pilot project aimed to centralize world data on Adverse Drug Reactions (ADRs). In particular, the main aim of the "WHO Programme" was to identify the earliest possible PV signals. The term PV was proposed in the mid-70s by a French group of pharmacologists and toxicologists to define the activities promoting 'The assessment of the risks of side effects potentially associated with drug treatment'. WHO defines PV as 'the pharmacological science relating to the detection, assessment, understanding and prevention of ADRs, particularly long-term and short-term ADRs of medicines. PV serves various roles such as identification, quantification and documentation of drug-related problems which are responsible for drug-related injuries. PV is mainly the post marketing surveillance (phase-4 study) of drug development; the main objective of PV is to quantify previously recognized ADRs, to identify unrecognized ADRs, to evaluate the effectiveness of medicines in real-world situations, and to decrease mortality and morbidity associated with ADRs. The UMC located at Uppsala, Sweden co-ordinates the International Drug Monitoring program (IDM). Till now there are 104 official member countries and 33 associate members throughout the world, including developed, developing and under-developed countries. India is the world's second most populated country with over one billion potential drug consumers. Although, India is participating in the UMC program, its contribution to this database is relatively small. This problem is

essentially due to the absence of robust ADRs monitoring system and also the lack of awareness of reporting concepts among Indian health care professionals. It is very important to focus the attention of the medical community on the importance of ADRs to ensure maximum benefits for public health and safety. In India ADRs are considered among the leading cause of morbidity and mortality. Approximately 8% of hospital admissions are estimated due to ADRs and regarding 8-19% of hospitalized patients experience a serious ADR. When the FDA approves a new drug or marketing, its complete adverse events profile may not be known because of the limitation of pre-approval clinical trials. Typically, clinical trials for new drugs are not of short durations and are conducted in populations that number up to 5000, therefore, the most common dose related ADRs are usually detected in the pre-marketing phase.

#### *Types of ADR:*

ADR is a response to a drug which is noxious and unintended, and which occurs at doses normally used in human being for the prophylaxis, diagnosis or therapy of disease, or for the modification of physiological function.

## BIMONTHLY COLLEGE NEWSLETTER

### TYPES OF ADRs

Type	Type of effect	characteristics	example
A	Augmented	Dose dependent predicted from the known pharmacology of the drug	Hypoglycaemia-insulin
B	Bizarre	Unpredictable Dose independent Rare, fatal	Anaphylaxis to penicillin
C	Chronic	Prolong treatment	Analgesic neuropathy
D	Delayed	After years of treatment	Antipsychotic – tardive dyskinesia

### Purpose of PV:

PV is the science and activities related to the detection, assessment, understanding and prevention of ADRs or any other possible drug-related problems. Recently, its concerns have been widened to include:

- ✓ Herbals Traditional and complementary medicines.
- ✓ Blood products.
- ✓ Biological products.
- ✓ Medical devices.
- ✓ Vaccines.

**Many other issues are also of relevance to the science**

- ✓ Sub-standard medicines.
- ✓ Medication errors.
- ✓ Lack of efficacy reports.
- ✓ Use of medicines for indications that are not approved and for which there is inadequate scientific basis.
- ✓ Case reports of acute and chronic poisoning.
- ✓ Assessment of drug-related mortality.

- ✓ Abuse and misuse of medicines.
- ✓ Adverse interactions of medicines with chemicals, other medicines, and food.

### *The specific aims of PV are to:*

- ✓ Improve patient care and safety in relation to the use of medicines and all medical and paramedical interventions.
- ✓ Improve public health and safety in relation to the use of medicines.
- ✓ Contribute to the assessment of benefit, harm, effectiveness and risk of medicines encouraging their safe, rational and more effective (including cost-effective) use.
- ✓ Promote understanding, education and clinical training in PV and its effective communication to the public.

PV has developed and will continue to develop in response to the special needs and according to the particular strengths of members of the WHO Programme and beyond. Such active influence needs to be encouraged and fostered; it is a source of vigour and originality that has contributed too much to international practice and standards.

### *Pharmacovigilance Programme of India (PvPI):*

A National PV Centre is located in the Department of Pharmacology, All India Institute of Medical Sciences (AIIMS), New Delhi and two WHO special centres are located in Mumbai (KEM Hospital) and Aligarh (JLN Hospital). These centres were to report ADRs to the drug regulatory authority of India. The major role of these centres was to monitor ADRs to medicines marketed in India. The Central Drugs Standard Control Organization (CDSCO), Directorate General of Health Services under the aegis of Ministry

## BIMONTHLY COLLEGE NEWSLETTER

of Health & Family Welfare, Government of India in collaboration with Indian Pharmacopoeia Commission (IPC), Ghaziabad, (U.P.) is initiating a nation-wide PV programme for protecting the health of the patients by assuring drug safety. The programme shall be coordinated by the IPC as a National Coordinating Centre (NCC). The centre will operate under the supervision of a Steering Committee. The PvPI was initiated by the Government of India on 14 July 2010 with the AIIMS, New Delhi as the NCC for monitoring ADRs in the country for safe-guarding Public Health. In the year 2010, 22 ADRs monitoring centres including the All India Institute of Medical Sciences (AIIMS) New Delhi, were set up under this programme. To ensure implementation of this programme in a more effective way, the NCC was shifted from the AIIMS, to the IPC on 15 April 2011.

### **International Collaboration:**

The following organizations play a key collaborative role in the global oversight of PV.

### ***The World Health Organization:***

The principle of international collaboration in the field of PV is the basis for the WHO Programme for IDM, through which over 150 member nations have systems in place that encourage healthcare personnel to record ADRs of drugs in their patients. These reports are assessed locally and may lead to action within the country. Since 1978, the programme has been managed by the UMC to which member countries send their reports to be processed, evaluated and entered into an international database called Vigi-Base. Membership in the WHO Programme enables a country to know if similar reports are being made elsewhere. When there are several reports of ADRs to a particular drug, this process may lead to the detection of a signal, and an alert about a possible hazard communicated to member countries after detailed evaluation and expert review.

### ***The International Council for Harmonisation (ICH):***

ICH is a global organization with members from the European Union, the United States and Japan; its goal is to recommend global standards for drug companies and drug regulatory authorities around the world, with the ICH Steering Committee (SC) overseeing harmonization activities. Established in 1990, each of its 6 co-sponsors—the European Federation of Pharmaceutical Industries and Associations, Japan's Ministry of Health, Labour and Welfare, the Japanese Pharmaceutical Manufacturers Association, the FDA, and the Pharmaceutical Research and Manufacturers of America—have 2 seats on the SC. Other parties have a significant interest in ICH and have been invited to nominate observers to the SC; 3 current observers are the WHO, Health Canada, and the European Free Trade Association, with the International Federation of Pharmaceutical Manufacturers Association participating as a non-voting member of the SC.

## BIMONTHLY COLLEGE NEWSLETTER

### ***The Council for International Organizations of Medical Science (CIOMS):***

CIOMS a part of the WHO is a globally oriented think tank that provides guidance on drug safety related topics through its Working Groups. The CIOMS prepares reports that are used as a reference for developing future drug regulatory policy and procedures, and over the years, many of CIOMS proposed policies have been adopted. Examples of topics these reports have covered include: Current Challenges in PV: Pragmatic Approaches (CIOMS V); Management of Safety Information from Clinical Trials (CIOMS.VI); the Development Safety Update Report: Harmonizing the Format and Content for Periodic Safety Reporting During Clinical Trials (CIOMS VII); and Practical Aspects of Signal Detection in PV: Report of CIOMS Working Group (CIOMS VIII).

### ***The International Society of PV (ISoP):***

ISoP is an international non-profit scientific organization, which aims to foster PV both scientifically, educationally and enhance all aspects of the safe and proper use of medicines, in all countries. It was established in 1992 as the European Society of PV.

### ***Future perspectives:***

For, the problems & challenges facing the development of a robust PV system of India, the following proposals might be as follows:

- ✓ Build & maintain a vigorous PV system.
- ✓ Making PV reporting mandatory and introducing PV inspections.
- ✓ High-level discussions with various stakeholders.
- ✓ Creating a single country-specific ADRs reporting form to be used by all.

- ✓ Strengthen the Drug Controller General of India (DCGI) office with trained scientific and medical assessors for PV.
- ✓ Creating a clinical trial and post-marketing database for SAEs / SUSARs and ADRs for signal detection and access to all relevant data from various stakeholders.
- ✓ Education and training of medical students, pharmacists and nurses in the area of PV.
- ✓ List all new drugs/indications by maintaining a standard database for every pharmaceutical company.
- ✓ Collaborating with PV organizations in enhancing drug safety with advancements in information technology, there has been the emergence of new opportunities for national and international collaborations that can enhance post-marketing surveillance programs and increase drug safety.

### ***Overall syllabus completion and attendance of D. Pharm I year Students***

The Overall 30% Syllabus of Theory and Practical subjects like Pharmaceutics, Pharmaceutical Chemistry, Pharmacognosy, Human Anatomy and Physiology and Social Pharmacy of D. Pharm-I year, was completed by the faculty members with 90% attendance of students for the Theory classes and Practical.

### ***Conducted First Sessional Examination of D. Pharm I year***

As per dates given in the Academic calendar provided by MSBTE, Mumbai, The Fabtech College of Pharmacy, Sangola was conducted the First Sessional Theory and Practical examination from 06/02/2023 to 10/02/2023.

### ***A Freshers Welcome Program was arranged at Fabtech College of Pharmacy, Sangola for D. Pharm first year students on 19<sup>th</sup> January***

The 19<sup>th</sup> January, 2023 was marked as a memorable day in the life of every fresher of 2022-2023 batch at Fabtech College of Pharmacy, Sangola. The Fresher's Day was a day that was filled with excitement, joy, music, enthusiasm, laughter and happiness.

The celebration started sharp at 10:30 am at Seminar Hall of college with the lightning of lamp by Chief Guest, Hon. Shri Bhausaheb Rupnar, Chairman, Fabtech Education Society's Sangola, Hon. Dr. Shri. Amit Rupnar, Managing Director, Fabtech Education Society's Sangola, Hon. Shri. Dinesh Rupnar, Executive Director, Fabtech Education Society's Sangola, Mr. Sanjay Adate, Campus Director, Fabtech

Technical Campus, Sangola, and Prof. Dr. S.K. Bais Principal, Fabtech College of Pharmacy, Sangola, Prof. S.U. Kamble, HOD, Diploma in Pharmacy, Sangola.

Principal welcomed all fresher's 2022-23 and Fresher's were formally welcomed into the Fabtech Pharmacy family. The programme was inaugurated with valuable speech of chief guest. Their speech was motivated to our students to grab skills for updating in knowledge to remain continuously in the stream of pharmacy education. The program was concluded with the vote of thanks by Miss. Tikke Prajakta (D. Pharm II Year) and wished success to freshers in the upcoming years.

The fresher's party was celebrated with introduction round followed by fun and Masti. Funny games were organized so as to generate the feeling of fraternity among seniors and juniors. All the events were artistically and beautifully presented in colours as well as style. The audience was kept enthralled for three hours by mind, blowing performances. Participants were supported and encouraged by everyone as they performed on the stage.

कॅम्पस ड्राईव्हमध्ये 'मल्टिनेशनल

फार्मसी कंपनी गोवा व वेलनेस फॉरएव्हर गोवा या कंपनीचे अधिकारी व त्यांचे सहकारी उपस्थित राहणार आहेत. यामध्ये जिल्ह्यातील व जिल्ह्याबाहेरील डी फार्मसी च्या व बी फार्मसीच्या शेवटच्या वर्षामध्ये शिकत असलेले विद्यार्थी या रिक्रुटमेंट ड्राईव्हमध्ये सहभागी होऊ शकतात. या रिक्रुटमेंट ड्राईव्हचे आयोजन

संस्थेचे चेअरमन श्री. भाऊसाहेब रुपनर, मॅनेजिंग डायरेक्टर डॉ. अमित रुपनर, कार्यकारी संचालक श्री. दिनेश रुपनर, कॅम्पस डायरेक्टर श्री. संजय अदाटे यांच्या मार्गदर्शनाखाली आयोजित करण्यात येणार आहे तरी विद्यार्थ्यांनी याचा लाभ घ्यावा. अधिक माहितीसाठी प्रा. डॉ. संजय बेस ९३५९३७९९०५ यांच्याशी संपर्क साधावा.

## फॅबटेक फार्मसीच्या तब्बल ११० विद्यार्थ्यांचे रिझिड्व्ह आर्टिकल्स आंतरराष्ट्रीय स्तरावरील फार्मसी जर्नलमध्ये प्रसिद्ध

सांगोला/प्रतिनिधी :

येथील फॅबटेक कॉलेज ऑफ फार्मसी मधील बी फार्मसीमधील शेवटच्या वर्षातील सातव्या सेमिस्टर मधील तब्बल ११० विद्यार्थ्यांनी आपले रिझिड्व्ह आर्टिकल्स आंतरराष्ट्रीय स्तरावरील फार्मसी जर्नलमध्ये प्रसिद्ध केले असल्याची माहिती महाविद्यालयाचे प्राचार्य डॉ. संजय बेस यांनी दिली. सदरचे रिझिड्व्ह आर्टिकल्स प्रसिद्ध करण्याकरिता विद्यार्थ्यांना

महाविद्यालयातील सर्व

प्राध्यापकांचे मार्गदर्शन लाभले. फॅबटेक कॉलेज ऑफ फार्मसी मध्ये राबटण्यात येत असलेल्या शैक्षणिक उपक्रमांबद्दल म्हणजेच शिक्षक पालक प्रतिनिधी (जीएफएम) ज्यामुळे विद्यार्थ्यांना कॉलेजच्या बाहेर जायचे असेल किंवा गैरहजर राहायचे असेल तर जीएफएमची परवानगी घ्यावी लागते, तसेच विद्यार्थ्यांच्या वैयक्तिक अडोडचणीकडे जीएफएम शिक्षक स्वतः लक्ष देतात.

आजच्या स्पर्धेच्या युगात फॅबटेक फार्मसीच्या विद्यार्थी कायम टिकून राहण्यासाठी लागणारी सर्वतोपरी तयारी विद्यार्थ्यांकडून करून घेतली जाते त्यासाठी आपण प्रथम वर्षापासूनच विद्यार्थ्यांना सर्व प्रकारची ट्रेनिंग वेळोवेळी आयोजित करत आहोत. तसेच महाविद्यालयात असणारा अनुभवी व उच्च विद्याविभूषित शिक्षक स्टाफ त्यांचा असणारा अनुभव यावेळी विद्यार्थ्यांना कामी पडत आहे.

विद्यार्थी शेवटच्या वर्षापर्यंत कोणत्याही कॅम्पस प्लेसमेंटसाठी परिपूर्ण होईल असे विद्यार्थी घडवणे हे आमचे कर्तव्य आहे असे प्राचार्य डॉ. संजय बेस यांनी सांगितले. या सर्व विद्यार्थ्यांचे संस्थेचे चेअरमन मा. श्री. भाऊसाहेब रुपनर, मॅनेजिंग डायरेक्टर श्री. अमित रुपनर, कार्यकारी संचालक श्री. दिनेश रुपनर, कॅम्पस डायरेक्टर श्री. संजय अदाटे यांनी अभिनंदन केले.
